

BUILDING COMMITTEE REPORT – MAY 8, 2013 CHURCH COUNCIL MEETING

The next step in moving forward with CUMC's building program is to ask the Church Location & Building Committee of the Northern Illinois Conference to allow us to request the congregation to approve the design concept for our proposed renovations and to authorize a capital campaign. We are in the process of scheduling a meeting with that Committee on some date during the last two weeks of May.

In other actions relative to the building program, our architects are attempting to resolve a concern with the City regarding our proposed new stairway. At its next meeting on May 20 the Committee will be considering the possibility of adding shower facilities which could be used by CUMC's PADS guests.

Dale Zimmerman, Chair
