

Hunger Commission Report July 2013

- Feedback from our contact at the CHA – Chicago Housing Authority – on the distribution and planting of seeds has been very positive. We hope to receive photos of senior gardens as some of the crops mature.
- This summer, in conjunction with the Stewardship emphasis on tithing, a table to distribute fresh vegetables grown in CUMC gardens will be set up in the hallway outside the sanctuary. Members are encouraged to contribute as well as receive from the 10% set aside for God and His people!
- We still anticipate coordinating activities, to include the creation of food buckets and school supply bags, with the Missions Committee. More on this as we are able to get together.
