

This fall, Trustees have been working on general maintenance items around Center street. Several light bulbs have been replaced in Classrooms. We are also getting the Lansdale Parsonage ready for Pastor Tom to move in after the first of the year.

Reminder that the Parlor and old office Space have No Heat. The restrooms, pastors offices and Hallways are all still heated from the Rooftop Units. The Entire education wing has been removed from the boiler system.

Respectfully Submitted,
Nate Burke
President - Board of Trustees
